Objectives:

As a Fisheries student passionate about scientific research, I aim to contribute analytical thinking and research skills while gaining hands-on research experience and professional mentorship. I am a fast learner with strong adaptability, teamwork, leadership, and a commitment to producing high-quality scientific work.

Education:

Bachelor of Fisheries Science | Suez University, Egypt (2025–2029)

Major: Inland Fisheries Department

GPA: 3.0 / 4.0

Leadership Experience:

Research Team Leader | Scientific Research Training Program Jul 2026 – Present

- Leading a research team throughout a 3-month scientific research training program.
- Coordinating research tasks and supporting effective teamwork.
- Developing skills in academic research, leadership, communication, and problem-solving.

Extracurricular Activities:

Event Organizer | The First Scientific Forum, Faculty of Fisheries Science, Suez University
May 5, 2026

- Organized and coordinated the university's first scientific forum, supporting event logistics and participant management.

Conference Coordinator | The 8th International Conference on Micro-Credentials and the National Qualifications Framework
April 22, 2026

- Coordinated conference activities, assisted with event organization, and supported attendees and speakers.

Event Organizer | Sixth-Generation Warfare Conference
April 20, 2026

- Participated in organizing the conference and ensuring the smooth execution of event activities.

Event Coordinator | New Beginning – Freshmen Welcome Event
November 13, 2025

- Assisted in planning, preparing, and coordinating the university's freshmen welcoming event.

Training:

Scientific Research Training Program | Scientific Research Initiative July 2026 – Present

- Participating in a 3-month intensive training program on scientific research methodology.
- Learning research topic selection, literature review, academic writing, data analysis, and research presentation.
- Developing practical skills in teamwork, leadership, critical thinking, and evidence-based problem solving.

Workshops:

Microsoft Office Workshop | Microsoft Egypt 2026

- Gained practical experience using Microsoft Word, Excel, and PowerPoint.
- Learned essential productivity, document formatting, spreadsheet, and presentation skills.
- Enhanced digital skills applicable to academic research, data organization, and professional work.

Courses:

One Million Prompters

- Prompt Engineering for AI Systems
- Dubai Future Foundation & Dubai Centre for Artificial Intelligence | 2026/7/28

Microsoft Office | Microsoft 2026

- Learned Microsoft Word, Excel, PowerPoint, and Outlook for document creation, data organization, and professional presentations.

CV Writing & ATS Optimization | Career Development Workshop 2026

- Learned how to create ATS-friendly CVs, tailor resumes for different job opportunities, and highlight skills and achievements effectively.
